<https://www.westernmurraylig.org/>

**Type of CRC industry partner:**  NRM  Consulting  Agribusiness  
 Technology  Water utility  Government agency

**Description of Organisation:** Western Murray Land Improvement Group is an incorporated not-for-profit Landcare group based in Barham NSW. Our office is located beside the Murray River, and we operate across diverse bushland, agricultural, and floodplain landscapes. We were established in 2003 by a group of local landholders and stakeholders who recognised the importance of sustainable agriculture practices with a focus on local Landcare and natural

resource management. Our projects support community capacity to deliver natural resource management, farm productivity and community outcomes. We advocate for our community and help empower them to thrive. We assist in applying for funding that is of benefit to the whole community. We have a proud record of delivering applied research, development, and extension projects to our community. We partner with local government, industry groups, and state and federal agencies to provide community networking opportunities and develop projects which will benefit the local region.

**\* Types of internship:**

- **Research internship:** conducting research-related tasks for organisations and/or researchers internal or external to the University. Tasks vary but may include study design, participant recruitment, data collection and analysis and reporting findings. Depending on the research, it may be completed face-to-face or remotely/externally; students may complete a minimum number of hours/days depending on the course, could be from several weeks to months.
- **Practical workplace internship:** undertaking hand-on tasks that enable development of employability skills and application of degree knowledge in a not-for-profit, university, government, non-government organisation or industry. The internship is likely to be face-to-face, but depending on the nature of the tasks and the student's study area, there may be scope for some remote/external work; students complete a minimum number of hours/days depending on the course, could be from several weeks to months.
- **Short-term project:** where interns complete a set project that has agreed desired outcomes and deliverables. Depending on the project, it may be completed face-to-face or virtually/remotely/externally; students complete a minimum number of hours/days depending on the course, could e.g. be a 100 hrs.)
